Re: Patent Application: END MILL GRINDER
File No.: L7008-0001

Dear Ray:

Congratulations! Enclosed is the original United States Patent which I recently received from the U.S. Patent and Trademark Office (PTO).

As your patent states on the cover, you have the right to exclude others from making, using, offering for sale, or selling your invention throughout the United States, or importing the invention into the United States for 20 years from the date of filing (i.e., until October 13, 2020). You should be aware, however, that your patent will remain in force for that whole period only if you pay to the PTO the maintenance fees required by law.

In 1982, the PTO established a three-tiered system of maintenance fees payable on patents filed on or after December 12, 1980. These fees are due three and one-half years, seven and one-half years, and eleven and one-half years from the issue date of the patent. Since your patent was issued on July 23, 2002, the schedule of payments is as follows:

<u>Date Due</u>	<u>Amount (Small Entity)</u>	<u>Amount (Large Entity)</u>
March 17, 2006	\$445.00	\$890.00
→ March 17, 2010	\$1,025.00	\$2,050.00
March 17, 2014	\$1,575.00	\$3,150.00

The amount of the fees may be periodically changed by the PTO. If you miss a payment, there is a six-month grace period after each due date during which payment may be made with a surcharge. However, failure to pay within the grace period may result in the expiration of your patent. Therefore, mark your calendar for the above payments.

Now that your patent has issued, please remember that I am fully able to assist you with legal agreements covering the making, selling, or licensing of your invention, as well as helping you to enforce your patent against would-be infringers.

Congratulations once again! Please give me a call if you have any questions, or if I can be of any further assistance to you.

Very truly yours,

Michael L. Diaz
